ListExploitStats

0040100 - 004010F

Tally up the number of exploits executed. If the total number of exploits exceeds a certain threshold a user on IRC is messaged.

Parameters
- conn - An IRC connection
- target - An IRC nick
- verbose - Switches on verbose mode
- total - Exploit threshold

Returns

-

Detailed description
- 0040104 This loop sums up the exploit stats
- 004010E Message the user if the treshold was met or verbose mode is on
